

Adobe Premiere Elements 9

- I will be showing you part of it.
- I will show how to add pictures, video(s), music, Titles and how to add a Picture on top of a video. It is the only program that does that.
- The reason for part it so you can view it and see if it is worth paying \$69.99 for it.
- Next is what it looks like when you open it.

- This is what it looks like when you open it and then click on New Project and next is what happens.

WELCOME TO
ADOBE® PREMIERE® ELEMENTS 9

Welcome to Adobe Premiere Elements 9!

Start here:

I'm new to Elements. Show me what I need to know.

I have an earlier version. Show me the latest cool stuff.

- This is what it looks like. To add pictures, you click on **Get Media** in the right. Next I will show you the area on the right when you click on it.

- You see a list and you click on Files and Folders.
- Next is what happens when you click on it.

- When you click on it a new window opens, like File explorer and you find the folder that has the pictures you want to add. Next is a sample of a folder with pictures.

- Here is sample. You click on the first one and the press and hold the Shift Key and click on the last one and you see them highlighted. Once they are highlighted, you click on open. Next is the second option to not select all of them.

- If you don't want all of them, you click on the first one you want and then press and hold the Ctrl Key and click on each one you want. Here is a sample. Once complete, click on open. Next is what happens when you select all of them, like the last page and click on Open.

- You then see them inside on the right. You have to highlight them to drag them to the bottom. You follow the same process to highlight them. Next is what happens.

- You see them highlighted and then left click on one of them and hold it down and drag then to the bottom. Next is what happens.

- You then see them at the bottom. Next is what happens when you click on a picture in the bottom.

- You then see it at the top on the left. The reason to do that is edit it, etc. Next is how to add a Video.

- You follow the same process of clicking on Get Media and click on Files and Folders. Next is to find a video on your computer.

- The same window opens and find a folder that has a Video you want to add. Click on it and click on Open. If you want to add more then one in the same folder, follow the same process to highlight them. Next is what happens, when you click on Open.

- It shows in the right, like the pictures. Next is how to drag it after the pictures on the bottom.

- You have to drag at the bottom to go to the end and you then see Drag and clip here to add the video. You left click and hold it down on the video and drag it down to the lower right and let it go. Next is what happens.

- You then see it. Next is to add music.

- You follow the same process of clicking on Get Media and click on Files and Folders. Next is to find a music on your computer.

- You find the folder with the music and then click on it and click on Open. Next is what happens.

- You see it on the right. You left click and hold it down and drag it to the Soundtrack line at the bottom. Next is what happens.

- You then see it at the bottom and the end is after the Video. If the Video has music, you can trim the music to the left before the Video. To trim, you left click and hold it down at the end and drag it before the Video. Next is what happens.

deo.

- You then see the end of the music before the Video.
- Next is how to add Title.

- You click on Edit and then click on Titles and you see Images that you can use to add a Title. You left click on the one you want and hold it down and drag it where you want the Title. Next is a sample of one of them at the beginning.

- You then see it at the beginning and see it on the left at the top and text is highlighted and you type in the Title, like Venice. On the right is the edit opens. Next is a sample of typing Venice and edit to make changes.

The screenshot displays the Adobe Premiere Pro interface. At the top, the menu bar includes 'pre', 'File', 'Edit', 'Clip', 'Timeline', 'Disc', 'Title', 'Window', and 'Help'. On the right side of the top bar, there are options for 'Sign In', 'Create New Adobe ID', 'Save', 'Undo', 'Redo', 'Organizer', 'Full Screen', and window management icons. Below the menu bar, the main workspace is divided into several panels. The central panel shows a video preview window with a title card that reads 'MOVIE TITLE HERE' in orange text on a purple background, set against a teal and green background with a white wavy line at the bottom. To the right of the preview window is the 'Properties' panel, which is currently set to 'Text' and shows 'Text Options' (Arial, Regular, size 35) and 'Text Styles' (various font styles). Below the preview window is the 'Timeline' panel, which shows a sequence of video clips. The first clip is the title card, followed by several clips of a wedding scene in Venice. The 'Timeline' panel also shows 'Sceneline', 'Video', 'Narration', and 'Soundtrack' tracks. The 'Soundtrack' track at the bottom shows a green bar labeled 'Venice_Beach.mp3'.

- Here is a sample. Next is how to add caption to a picture. It is called Title on this program. You first click on the picture you want to add a caption/title on it.
- Note – this Title changes the length of the music, so you may want to trim again to make it longer.

The screenshot displays the Adobe Premiere Pro software interface. At the top, the menu bar includes 'pre', 'File', 'Edit', 'Clip', 'Timeline', 'Disc', 'Title', 'Window', and 'Help'. On the right side of the top bar, there are options for 'Sign In', 'Create New Adobe ID', 'Save', 'Undo', 'Redo', 'Organizer', 'Full Screen', and window management icons. Below the menu bar, the main workspace is divided into several panels. The central panel shows a video preview window with a title 'Venice Vacation' overlaid on a background of a green hill and a blue sky with white clouds. To the right of the preview window is the 'Properties' panel, which is currently set to 'Text Options'. This panel includes a font dropdown menu set to 'AR BERKLEY', a 'Save Style' button, and various text formatting options such as font size (83), leading (0.0), and tracking (0.0). Below these are 'Text Styles' and 'Text Animation' sections. At the bottom of the interface is the 'Timeline' panel, which shows a sequence of video clips. The first clip is the title 'Venice Vacation', followed by several clips of people in a public square, likely St. Mark's Square in Venice. The 'Soundtrack' panel at the very bottom shows a music track named 'Venice_Beach.mp3'.

- Once you click on the picture, then click on Title in the top on the left and a new window and then click on New Title and you see options. I recommend click on Default Still and next is what happens.

- You see Add Text. You highlight it and type in the Text you want, like Wedding and on the right you can edit it. Next is a sample of adding Wedding and edit it to Bold, etc.

- Here is a sample. It was not easy to put the text at the bottom. You have to highlight the text and right click on it. Next is what it looks like.

The image shows the Adobe Premiere Pro interface. At the top, the menu bar includes 'pre', 'File', 'Edit', 'Clip', 'Timeline', 'Disc', 'Title', 'Window', and 'Help'. On the right side of the top bar, there are options for 'Sign In', 'Create New Adobe ID', 'Save', 'Undo', 'Redo', 'Organizer', 'Full Screen', and window management icons. Below the menu bar, the main workspace is divided into several panels. The central panel displays a video clip of a wedding scene in a public square with pigeons. The word 'Wedding' is overlaid in a white, cursive font. To the right of the video is the 'Properties' panel, which is currently set to 'Text Options'. It shows the font 'Adobe Caslon Pro' in 'Bold Italic' style, with a size of 68 and a leading of 0.0. Below this are 'Text Styles' and 'Text Animation' sections. At the bottom of the interface is the 'Timeline' panel, which shows a sequence of video clips. The first clip is a title card with the text 'Wedding' on a green and purple background. The second clip is the wedding scene seen in the main preview window. The third clip shows a man holding a baby. The fourth clip shows a bride and groom. The fifth clip shows a wide shot of the public square. The sixth clip shows a group of people. The 'Soundtrack' panel at the very bottom shows a green audio track labeled 'Venice_Beach.mp3'.

- Here is a sample. You then click on Position and then click on Lower Third. Next is what happens.

- You then see it at the bottom. Next is how to add image on top of a Video.

The screenshot displays the Adobe Premiere Pro interface. The main preview window shows a video clip of a wedding scene in a public square with pigeons. A white, cursive title "Wedding" is overlaid at the bottom of the video. The interface includes a menu bar at the top with options like File, Edit, Clip, Timeline, Disc, Title, Window, and Help. Below the menu bar are tabs for Organize, Edit, Disc Menus, and Share. The Edit tab is active, showing a library of titles and graphics. The timeline at the bottom shows a sequence of clips: a title "fun_title", a video clip "Cruise2009_055.JPG", and several other video clips. The video clip "Cruise2009_055.JPG" is currently selected and playing.

- At the bottom you scroll it to the right and then click on the Video and you see it on the left and then click on play to find the place you want to add a picture. Next is a sample of play to a point to add a picture.

- Here is a sample to this part of the video and then click on it again to pause. You can click on Edit and click on Clip art and drag an image to the video and you see it. It starts at this part of the video for about 3 seconds. Next is how to save as a Video.

- You click on Share in the upper right and then click on Computer. Next is what happens.

- **Window changes and click on Browse to find the folder you want to save to. Next is what happens.**

- A new window opens and you find the folder you want, and click on it like I did and then click on OK. Next is what happens.

- You than see the folder and you can change the File Name, like Venice that I did. I recommend you click on Adobe Flash Video and then click on Save. Next is what happens.

- You then see it in process. Next is what happens when it is finished.

- You then see that the Save is complete and then click on Done. Next explains about the Video.

- **Once it is complete, you can open File explorer and find the folder with the Video and play it.**
- **This is the end of the Adobe Premiere Elements 9 PDF file.**
